- UI/UX

### PROJECTS

#### 1. Food Delivery Site - [Live Demo](#)

Technologies used: JavaScript, HTML, CSS, Bootstrap

- Designed and developed the site using HTML, CSS, and Bootstrap.
- Made the layout fully responsive
- Used Chrome DevTools for debugging and performance improvements.
- Added interactive features like modals, buttons, cards, and hover effects.
- Implemented a smooth navbar with hover interactions for better UX.

#### 2. To-Do-List Application- [Live Demo](#)

Technologies used: JavaScript, HTML, CSS, Bootstrap, Local Storage

- Implemented features such as adding, editing, deleting, and marking tasks as completed.
- Utilized local storage to persist user data.
- Designed a responsive and user-friendly interface with management functionality.
- Applied DOM manipulation and state management to update the UI in real-time.

### EXPERIENCE

#### Internship, Birla Planetarium

05/2024 | Chennai

Duration: 15 Days

- Worked with group members to fix robotic parts, set up the program, and make it work.
- Practiced 3D design using beginner-friendly tools.
- Created simple mobile apps using App Blocks (a block-based, no-code platform).
